

# **Technical Data Sheet**

## UltraMesh® Blockout

UltraMesh Blockout is a 12.5 oz. double-sided mesh material. The blockout mesh material is ideal for applications where complete opacity is required. UltraMesh Blockout is printable on both sides. The material allows 35% air-flow through and may be used for billboards, exhibits and event signs. UltraMesh Blockout is flame resistant and compatible for use with solvent, eco-solvent and UV printing. Available in widths of 126".

#### **Material Details**

| CHARACTERISTICS         | TEST METHOD | METRIC                  | ENGLISH               |  |
|-------------------------|-------------|-------------------------|-----------------------|--|
| Type of Yarn            |             | Polyester               |                       |  |
| Thread Count            |             | 11×11                   |                       |  |
| Yarn Dtex               |             | (3x840D)*(3500D) denier |                       |  |
| Total Weight            |             | 420 g/m²                | 12.5 oz./yd²          |  |
| Tensile Strength        |             | 4000×2300 N/5cm         | 456.80 x 262.66 lb/in |  |
| Tear Strength           |             | 210×390 N               | 47.2 x 87.68 lbf      |  |
| Flame Resistance        |             | NFPA701, M2, B1, B2     |                       |  |
| Air Permeability        |             | 35%                     |                       |  |
| Low Temperature         |             | -30°C                   |                       |  |
| Shelf Time              |             | 12 months               |                       |  |
| Application Temperature |             | -30°C ~70°C             |                       |  |
| Durability              |             | 12 months               |                       |  |

#### **Applications**

|              | Banners,<br>Signs,<br>Flags | Large<br>Billboard<br>/Frame | Adhesive<br>Signage | POP<br>Displays<br>Posters | Backlit<br>Displays/<br>Frames | Exhibits,<br>Events<br>signs | Truckside |
|--------------|-----------------------------|------------------------------|---------------------|----------------------------|--------------------------------|------------------------------|-----------|
| Applications |                             |                              |                     |                            |                                |                              |           |

### **Ink Printability**

| Solvent | Eco<br>Solvent | UV | Latex | Screen<br>Printing | Dye<br>Transfer | Dye<br>Direct |
|---------|----------------|----|-------|--------------------|-----------------|---------------|
|         |                |    |       |                    |                 |               |

#### **Available Sizes**

| Metric (m) | English (inches) |
|------------|------------------|
| 3.20m      | 126"             |

The information on physical and chemical characteristics is based upon tests believed to be reliable. The values are intended only as a source of information. A legally binding guarantee of specific properties is not to be inferred from our specifications. They are given without guaranty and do not constitute a warranty. A weight variance of +1/-2 is acceptable. The purchaser should independently determine, prior to use, the suitability of this material for his/her specific purpose. (Data represents averages and is not intended for use as a specification.)
