

VorTex™ Triple White D251 is a 7.4 oz., tightly woven polyester that produces a smooth print surface for notable print quality. The material structure allows for a fabric solution with both front-lit and back-lit capabilities. VorTex Triple White D251 is ideal for direct dye-sublimation, Latex and UV print processes. VorTex Triple White D251 has more opacity than similar weight products, making it an excellent choice for SEG frame and pop-up display systems. VorTex Triple White D251 is fire resistant and available 126" wide.
